

Kyle Okura

Laguna Niguel, CA | (949)-616-5372 | kyle.okura@yahoo.com | KyleOkura.GitHub.io

PROFILE:

Recent Computer Science graduate with hands-on experience in Python (pandas, NumPy, scikit-learn) and SQL for data cleaning, transformation and feature engineering. Skilled at identifying and resolving data discrepancies and building visualizations in matplotlib and seaborn to communicate insights. Seeking a data-focused role where I can apply skills in machine learning, statistical analysis, and data visualization to uncover actionable insights and support data-driven decisions.

EDUCATION:

University of Colorado Boulder

B.S. in Computer Science, Minor in Business

May 2026

Boulder, CO

- **GPA 3.5** | Dean's list Fall 2023, Spring 2025
- Chancellor's Achievement Scholarship
- Relevant Coursework:
 - Data Science with Probability and Statistics
 - Intro Artificial Intelligence
 - Database Systems
 - Machine Learning

PROJECTS:

Tennis Shop Analytics (*In Progress - Python, SQL*)

- Designed and built an end-to-end inventory management and order-tracking application.
- Automated order creation and job completion tasks, cutting turnaround time for high-volume daily tasks.
- Built a relational customer database to track stringing history, enabling faster service and repeat-customer insight

Credit Card Fraud Detection (*Python, PyTorch, scikit-learn*)

- Trained a Multi-Layer Perceptron (MLP) on 284,807 real-world credit card transactions to classify fraudulent charges.
- Addressed extreme class imbalance using stratified splitting, weighted loss functions, and threshold tuning.

Mancala Game Tree Solver (*Python, Flask*)

- Developed an AI agent using Minimax and Alpha-beta pruning algorithms to optimize Mancala gameplay.
- Implemented heuristic evaluations to improve decision-making depth and performance.

Predictive Modeling & Data Analysis (*Python, scikit-learn*)

- Built a machine learning pipeline to predict residential property sale prices across 500,000+ records and 62 features.
- Performed feature engineering, linear regression modeling, and assessed performance through error analysis.

COMPUTING SKILLS:

Python

- Neural networks, game tree algorithms, and linear regression models
- Packages: numpy, pandas, sklearn, matplotlib, seaborn

SQL

- Querying, manipulating, and managing structured data in relational databases

Data Visualization

- Power BI and Tableau

Microsoft Excel

- Pivot tables, VLOOKUP/XLOOKUP, and formula-based reporting

Google Advanced Data Analytics Professional Certificate (*In Progress - Coursera*)

WORK EXPERIENCE:

South County Tennis Shop

July 2021 to Present

Manager

Laguna Woods, CA

- Oversaw daily operations and served as the primary point of contact for customers, delivering professional and knowledgeable service in a fast-paced retail environment.
- Handled transactions, balanced the register, and prepared end-of-day financial reports.

INTERESTS:

- **Poker:** Hand range analysis, expected value, and exploitative vs GTO play styles
- **Snowboarding:** Avid snowboarder chasing fresh powder
- **Tennis:** Competitive player since high school, enjoying the mental and physical challenge
